

Report for Project- Poshan

Raah Initiative, Child development Department

Project- Poshan was initiated to provide nutritional packets to HIV positive patients of the transgender community during Lockdown. Funds were raised upto Rs 50,000, and things like khajoor, mix dry fruits, amla candy, peanuts- chikki, chyawanprash were provided in this pack. An NGO Aashayein donated sanitizers and masks for this project. We provided 62 Nutripacks. Our distribution partner- Humsafar trust helped us in distributing these packs to the people on 23rd April 2020.

As a part of Project- Poshan, informative videos were created with the help of Ms Shama Chavan and Ms Rasiqa Chunawala to boost immunity of the transgender people. These videos were further shared on our RAAH youtube channel, facebook as well as on website to help the community be fit and strengthen their immunity.
